HEALTHCARE CAREER FAIR

On April 12, students in grades 9-12 interested in a career in healthcare attended a Healthcare Career Fair at the Palmer Public Library. The fair was an opportunity for these students to connect with local employers and learn more about the essential and rewarding healthcare career opportunities.

MANUFACTURING SHOWCASE

On April 13th, WJSHS welcomed the following companies for our Manufacturing Showcase:

FLEXcon

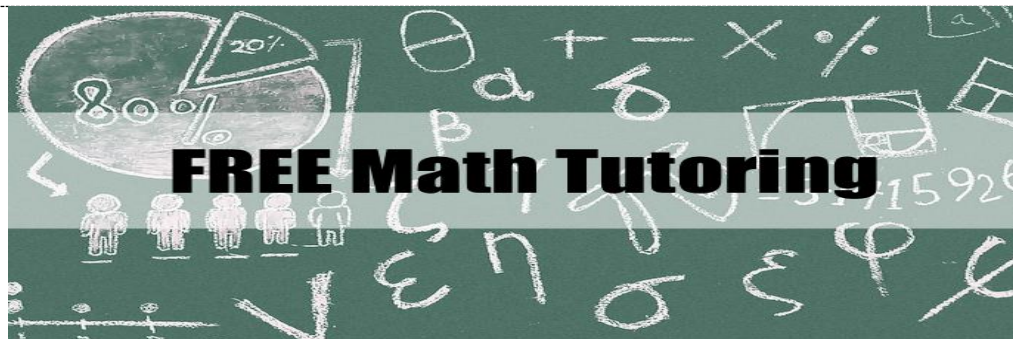

Vibram

Kanzaki

Sanderson MacLeod

Quabbin Wire & Cable

Juniors and Seniors interested in careers in Manufacturing/Engineering had an opportunity to meet with these potential employers and local companies.

In preparation for the 2023 MCAS Math exam in May, Ware Junior-Senior High School is offering Math Tutoring with Mr. Orszulak. This service is free to all Junior-Senior High School Students.

If you are interested, please contact the Guidance Department or Mr. Orszulak to register for tutoring sessions.

SMK Spring Book Fair

April 24-28
SMK Library

Students will be visiting the fair during their scheduled library/computers class.

For those who would like to shop with their child, the fair will be open on Thursday, April 27 from 4:45-6:45.

Additionally, you can shop the book fair online by clicking [here](#). The website will be open from April 24 until May 7.

All of the profits from our book fairs go toward books and supplies for our library.

Contact Information

Please make sure to inform your child/ren's school office of any changes to your contact information so that you receive all pertinent messages that get sent home.

Many acts of kindness and support can be observed on any given day in all three buildings; however, we don't get to see them all. If you see an act of kindness or a good deed in the Ware Learning Community, we want to hear about it! Share it with us by completing our form [WARE Positivity Shines](#).

IT'S MORE THAN JUST A SWEET FLAVOR.

DO YOU KNOW WHAT IS IN YOUR VAPE?

**“It’s just
flavoring”**

Vapes get their flavors from chemicals. Inhaling these chemicals will harm your lungs.

**“It’s just water
vapor”**

Vapor can expose you to harmful chemicals such as Acrolein, Formaldahyde, and DiaceytI.

**“Nicotine isn’t that
bad for me”**

Nicotine exposure during your teen years can disrupt normal brain development, and has long lasting effects.

CHEMICALS FOUND IN YOUR VAPE

Formeldahyde: A toxic chemical that can cause lung disease and contribute to heart disease.

Acrolein: Typically used as a weed killer, and can also damage your lungs.

DiaceytI: A food additive, used to deepen e-cigarette flavors, which is known to damage small passageways in your lungs.

HELP YOUR FUTURE SELF. QUIT VAPING NOW.
