

FROM THE DESK OF
Superintendent DiLeo

As my time in the district is quickly coming to an end, I wanted to send out one last message filled with gratitude for the chance to serve the children, families, and the Ware Learning Community. When I arrived in the district in 2008, I did not think my journey would span across 15 years; leading two buildings, SMK & JS High School, before taking on the superintendency in 2014. This has been an opportunity of a lifetime and I am appreciative of my time here.

To the students and families of Ware - thank you for all your support throughout the years as the district worked to provide students with opportunities for success. I will always remember the many relationships I have built along the way as I worked to touch as many lives as possible in a positive manner. It has been an honor and privilege to serve you!

To teachers, paraprofessionals, and staff - Thank you for working hand in hand with me throughout my tenure. It has been a pleasure working side by side with you to achieve our goal of educating and caring for the children of Ware through good times and challenging ones. Thanks for all you do, it never went unnoticed.

To the Senior Leadership Team - Thank you for trusting and embracing my leadership as we worked together to support students, families, teachers, and staff. I couldn't have asked for better teammates to take on the task of educating children. As we worked to recover from COVID-19 you have proven to be the steady hand that guides your building, and you continue to amaze me daily. Your commitment and perseverance are evident in all you do!

All the best,

Dr. Marlene A. DiLeo
