Medications

With the warmer weather around the corner comes seasonal allergies. If your child takes medication for allergies, please make sure they take it before school.

Clothing Donations

If you would like to donate clothes to the nurses offices, especially leggings and athletic pants, they would be greatly appreciated!

If you have borrowed clothes from any of the school nurses, please return them so they can be used for another student.

Please send your child to school with a water bottle.

Annual Physical Exam

Students should be visiting their pediatrician annually. This keeps them up to date on immunizations and gives parents an opportunity to discuss growth, development changes, behavior, nutrition, etc...

If your child will be entering into 7th grade in the fall, there are immunizations required for them to do so. Please plan accordingly so your child is up to date for the start of the school year.

Runny nose	✓	✓	✓	rarely
Sneezing	✓	✓	✓	sometimes
Sore throat	sometimes	✓	✓	sometimes
Shortness of breath	sometimes	rarely	✓	✓

SCHOOL EXCLUSION GUIDELINES

The decision to exclude students who have infectious diseases should be made in conjunction with health care providers, parents, and school. Students should be allowed to return to school once the exclusion is met or a health provider clears the student. Generally, if any of the following conditions apply, exclusion from school should be considered:

- ✓ If the student does not feel well enough to participate comfortably in usual activities
- ✓ If the student requires more care than school personnel are able to provide
- ✓ If the student has a high fever, behavior changes, persistent crying, difficulty breathing, lack of energy, uncontrolled coughing, or other signs suggesting a possibly severe illness

ILLNESS OR SYMPTOM	EXCLUSION GUIDELINES
Chicken pox	Exclude until <u>all</u> blisters have erupted & crusted over. Needs to be diagnosed by a physician. Please call the school nurse with any questions.
Common cold	No exclusion necessary unless symptoms are severe
Conjunctivitis (Pink Eye) Pink color of eye <i>and</i> thick yellow/green discharge	Exclude -(bacterial or viral), until approved for return by health care provider or until 24 hours after medical treatment started
Cough (significant) (Uncontrolled coughing; wheezing; rapid or difficult breathing)	Exclude -medical attention is necessary Note: Students with asthma may be cared for with a written health plan and authorization for treatment
Diarrhea Frequent, loose, or watery stools compared to child's normal pattern; not caused by diet or medication	Exclude -until symptom free for 24 hours
Fever (100.4 or higher)	Exclude -until fever free without the use of medication for 24 hours
Fifth Disease	No exclusion necessary , unless other symptoms such as significant fatigue, etc.
Hand Foot and Mouth Disease	No exclusion necessary , unless other symptoms such as fever or discomfort from sores
Head Lice	May return after treatment starts
Impetigo	Exclude until 24 hours after treatment starts
Rash <u>with</u> fever, behavior changes, joint pain, oozing rash, etc.	Exclusion is recommended if the student has other symptoms in addition to rash
Ringworm	Exclude from end of school day until after first treatment
Scabies	May return after treatment
Shingles	No exclusion necessary as long as blisters are covered
Stomachache/Abdominal pain	Exclude if pain is severe; if pain occurs after an injury; or if student has other symptoms in addition to the stomach ache/abdominal pain
Strep throat	Exclude until 24 hours after medical treatment started
Vomiting	Excluded for 24 hour from last vomiting episode
